

Bachelor of APPLIED SCIENCE

A Convenient Program Tailored to Your Goals

Looking for a convenient, exciting bachelor's degree program?

If you are a Florida community college Associate in Science (A.S.) graduate, we invite you to consider a Bachelor of Applied Science (B.A.S.) degree program offered at many of the University of Central Florida Regional Campuses.

- Build on technical and professional skills acquired with your Associate of Science degree
- Develop flexible curricula to achieve your academic goals via varying tracks
- Choose from convenient campus locations
- Accelerate your personal and professional growth
- Position yourself to pursue graduate degree opportunities

GENERAL EDUCATION

General Education courses earned for the Associate of Science degree will be applied toward the UCF General Education requirements. Students will be allowed to complete the remaining UCF General Education requirements as a transient student at the community college prior to graduation. Students are encouraged to discuss this requirement with a UCF Regional Campus advisor prior to transfer to UCF.
