6. THE STUDENT IS A: BASIC RECRUIT STUDENT OR INSTRUCTOR STUDENT

7. BASIC RECRUIT STUDENTS ONLY:

Indicate if the student has been contaminated by the chemical agent oleo-resin capsicum (OC) and/or orthochlorobenzal-malononitrile (CS) and the date of the contamination; or	<input type="checkbox"/> YES. DATE: _____
Indicate if the student has been previously contaminated by the chemical agent oleo-resin capsicum (OC) and/or orthochlorobenzal-malononitrile (CS), and the date that such documentation was reviewed and approved by the training center director.	<input type="checkbox"/> YES. DATE: _____

8. **DEMONSTRATION OF SKILLS:** While demonstrating skills, the basic recruit or instructor student will exhibit the appropriate stances and the principles of presence and relative positioning. For each skill to be tested, place a check mark in the box next to the technique name. Mark the appropriate box for either **PASS** or **FAIL** performance.

FAILURES REQUIRE COMMENTS. Use the "comments" section to note any deficiencies in the student's performance or remediation required. Be specific when making comments, and advise the student where improvement is necessary to achieve a passing score. If remediation is necessary, a remediation plan is required before the student can be retested on his or her performance. For each group of techniques evaluated, the evaluator shall print and initial his or her name by the performance(s) he or she observes and rates, and the date of the student's evaluation.

14. OVERALL PROFICIENCY DEMONSTRATION: PASS FAIL

Place a check in the boxes provided for either **PASS** or **FAIL** to signify the student's overall proficiency demonstration. If the student has FAILED any portion of the test, the instructor must provide the student with a remediation plan.

15. **REMEDIATION PLAN:** If a basic recruit student was not successful in the first attempt of any exercise, complete and attach a remediation plan.
- A basic recruit student **is allowed** one remediation for each exercise. Retesting requires a new CJSTC-6 CMS form with the number "2" indicated in the space provided in item number 5 above.
 - An instructor student **is not** allowed remediation.

INSTRUCTOR TO STUDENT RATIO

For instruction of the CMS Criminal Justice Defensive Tactics Course or the CMS Defensive Tactics Instructor Course, there shall be one lead Defensive Tactics Instructor for each class plus one Commission-certified Defensive Tactics Instructor for every ten students actively engaged in defensive tactics. **Actively engaged** is defined as "a student engaged in the practical performance of any one of the approved defensive tactics techniques."

BASIC RECRUIT STUDENT PROFICIENCY REQUIREMENTS

In all categories, the minimum number of techniques indicated shall be taught and tested. Where indicated with a checked box followed by the word "Required," the specific techniques shall be included in the minimum number taught and tested. A basic recruit student shall demonstrate 100% proficiency of all minimum required techniques tested to pass the performance portion of the CMS Criminal Justice Defensive Tactics Course. The minimum number of required techniques for law enforcement and correctional probation is 41. The minimum number of required techniques for correctional is 42.

In advance of the class start date, the training center director may approve the instruction of additional skills listed on this form. These skills may be taught and tested and shall not count against the student's pass/fail of the course.

A basic recruit student shall be subject to chemical agent contamination as described in the CMS Criminal Justice Defensive Tactics Course. Prior to beginning a Florida CMS Law Enforcement, Traditional Correctional, or Florida Correctional Probation Basic Recruit Training Program, a student shall complete the Physical Fitness Assessment form CJSTC-75B, which verifies there are no known medical conditions that would prevent a basic recruit student from participating in chemical agent contamination. A basic recruit student who has provided the training center director with acceptable documentation of prior chemical agent contamination, which includes chemical agent contamination and working through the effects of chemical agent contamination in a training environment, shall be exempt from this requirement.

INSTRUCTOR STUDENT PROFICIENCY SKILLS REQUIREMENTS

An instructor student shall be taught and tested in every technique and complete the Defensive Tactics High-Liability Proficiency Skills at 100% accuracy with the results recorded on this form.

RE-TEST

Basic Recruit Student. A basic recruit shall be given the opportunity for one additional attempt at the required demonstration of high-liability proficiency skill(s) or one re-examination of required cognitive knowledge in the high-liability topic. A basic recruit student, who has failed to successfully demonstrate the cognitive knowledge or the required high-liability demonstration after a second attempt, shall be deemed to have failed the high-liability course.

Instructor Student. An instructor student shall successfully demonstrate cognitive knowledge and proficiency skill(s) during the initial qualification. If he or she fails to successfully demonstrate the cognitive knowledge or high-liability proficiency skill(s) during the first attempt, he or she shall be deemed to have failed the high-liability instructor course.
