

Redesigning and Updating the Science Division Website

Operational Unit: Science WEC

Unit Purpose Statement: The mission of the WEC Science Division is to provide educational opportunities that give students the knowledge and skills needed for a lifetime of critical inquiry and scientific learning.

Initiative Contact: Frances Frierson

Expected Results and the Means of Assessment

Expected Results 1: Redesigning and updating the Science Division website will improve its appearance, navigability, and accuracy.

Means of Assessment: Faculty, staff, and selected students will be asked to navigate throughout the website and provide suggestions for improvement. The Dean and selected staff will collaborate with OIT to maintain technical efficiency.

Individual Responsible: Frances Frierson

Expected Completion: 6/30/2009

Stakeholders: Dean of the Science Division, selected faculty and staff, as well as technical assistance provided by OIT

Results:

Implementation Plan

Budget Requirements: Based on time from selected Science Division staff and Office of Information Technology support.

Results to Improve: Science Division faculty, staff and students have benefitted from the improved accuracy, currency and communication efficiencies generated by this effort. This updated division web presence will enhance instruction as well as professional and public interaction.

Changes for Next Year: Faculty and staff will continue to work with the Office of Information Technology to add animations and visuals, faculty biographical sketches, course and program descriptions and other useful academic and planning tools.
