- **A word to the wise:
*Be safe on MySpace!***

- MySpace makes it easy to express yourself, connect with friends and make new friends.
- BUT...remember that what you post publicly could embarrass you or expose you to danger!

Safety on myspace.com

Hello, Valencia Student!

“A Better Place to Start!”

- Remember—your MySpace profile and MySpace forums (i.e. blogs, bulletins, comments, etc.) are public spaces.
- Never post anything you wouldn't want the world to know, for example:
 - Your phone number
 - Your address
 - Your specific whereabouts
- Avoid posting anything that would make it easy for a stranger to find you, such as where you **hang out** every day, your **work** schedule and location, or what **classes** you're taking.

Safety on myspace.com

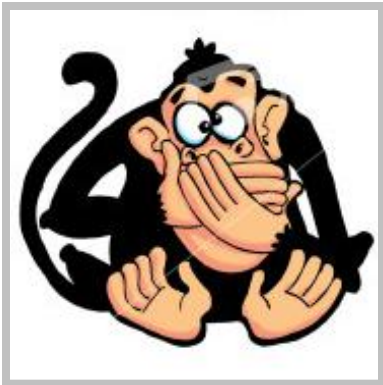

- **People aren't always who they say they are.**
- **Be careful about adding strangers to your friends list.**

Hear No Evil

- It's fun to connect with new MySpace friends from all over the world, but...
avoid meeting strangers in person.
- If you must meet someone, do it in a public place and bring a trusted friend with you.

Speak No Evil

- **Harassment, hate speech, and inappropriate content should be reported.**
 - If you feel someone's behavior is inappropriate, react.
 - Talk with a trusted person.
 - Report it to MySpace or the authorities.

Safety on myspace.com

See No Evil

- **Don't post anything that would embarrass you later.**

- **Refrain from misleading people into thinking that you are older or younger.**
 - If you lie about your age, MySpace will delete your profile.
